## COVID-19 Prevention

**April 13th, 2020**

We are keeping our employees and valued customers informed so that everyone feels confident that our company is doing everything possible to keep everyone healthy and safe!

We are closely monitoring the COVID-19 situation, the Center for Disease Control and Prevention (CDC), World Health Organization (WHO), and other health authorities as well as adhering to official guidelines and recommendations.

We continue to train all of our employees on all new government issued guidelines and monitor their health. Our Health Assessment Program is part of our check-in process, in which we take the employee's forehead temperatures and we ask them health related questions about their health as well as their family's.

We hope that as our customers, you will keep us informed about any cases of COVID-19 in your facilities that could affect our delivery personnel so we can take extra precautions when delivering.

We will continue to update our health and safety policies in accordance with all national guidelines, and continuously communicate any changes as quickly as possible.

If you have any questions or concerns, please feel free to contact our Customer Service Line 773.927.8870 or our Food Safety Line 262.842.7078.

We hope you had a safe and healthy Easter and Passover.
